PROJECT SUN STREAK

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

---

PROJECT NUMBER: TRAINING      SESSION NUMBER: 3 OF 3  
DATE OF SESSION: 05 AUG 88      DATE OF REPORT: 05 AUG 88  
START: 1035      END: 1139  
METHODOLOGY: CRV      VIEWER IDENTIFICATION: 025

---

1. (S/NF/SK) MISSION: To access and describe the target object, paying close attention to proper CRV structure.
2. (S/NF/SK) VIEWER TASKING: The target site is an object at the 6-digit encrypted coordinates: 870230/629727.
3. (S/NF/SK) COMMENTS:
  - a. Inclemencies: None reported.
  - b. 025 went once through Stages 1-3 before going into Stage 4.
  - c. 025 was not aware that a Stage 3 drawing could be probed for cueing in Stage 4. Most of the last portion of the session was spent trying this. Many valid perceptions were received in this manner.
  - d. 025 is showing very good structural awareness and self-correction. Any problems in this area are presently minor, and should work themselves out with little further attention.
  - e. 025 may need further instruction in getting all the perceptions of the session into the session summary.

5 August 1988

#### Summary

The dark, smooth, metallic object has a triangular component with air in the center. This object has tiny, flashing, yellow orange lights indicative of electricity. Something is generated from one direction to the other (movement) motion/circulation. Something that is long and rounded is in a bent position. Backs of people were present at one point. Every part of this object is necessary in order for it to work. Only beep beep noises were detected. Proper timing and space is important in relation to this object.
